#### Site Technology (fetched 14 days ago)

#### Cloud & PaaS

Cloud computing is the use of computing resources (hardware and software) that are delivered as a service over a network (typically the Internet). Platform as a service (PaaS) is a category of cloud computing services that provide a computing platform and a solution stack as a service.

Technology	Description	Popular sites using this technology
Amazon Web Services - EC2 📽	Cloud computing service (Elastic Compute Cloud)	www.makeuseof.com, www.duolingo.com, onlyfans.com

#### **Application Servers**

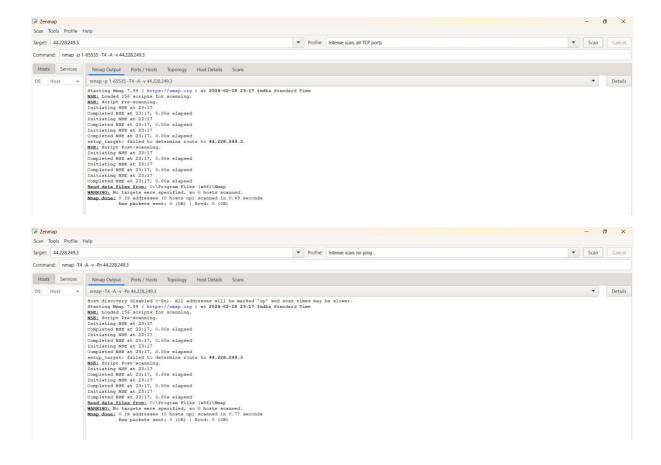

An application server is a server that provides software applications with services such as security, data services, transaction support, load balancing, and management of large distributed systems.
